

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the oldest newspaper published in British Columbia; it is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony.

DAVID SPENCER, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

This paper may be read gratuitously in London at the Central Establishment of "HOLLAND'S PRESS AND OVERSEAS," 211, Strand, where advertisements and subscriptions for the same are received.

NEW ADVERTISEMENTS THIS DAY.

The British Columbian.

SATURDAY, APRIL 27, 1867.

GOING! GOING!! GONE!!!

Not yet, friend Seward. There is not a doubt of your cleverness—smartness would perhaps be the better word. The world needs no further proof of that than what has already been afforded. But you can't buy "the Western portion of British Columbia," especially by "turning in" the everlasting "Alabama claims" as an instalment of the purchase money. Great Britain is not "on the sell," and if she were, Brother Jonathan hasn't the price of the coveted territory "at call." It would, perhaps, be difficult to subject the loyalty and national predilections of our people to a better test than that applied by the little squib which came to us over the wires on Wednesday, announcing, in the laconic language of electricity, that Seward was negotiating with Stanley for the purchase of "the western portion of British Columbia." Some believed, others scoffed, but all indignantly protested against being sold—transferred to a foreign power like so many slaves. One citizen, of a more philosophical turn of mind than his neighbors, was concerned to know whether New Westminster lot-owners would be indemnified! We don't believe a word of it: Not that we think Seward wouldn't make the proposition, it's just like what he'd do; and "turning in" the "Alabama claims" has the genuine Seward ring about it. The American doctrine, becoming more intensified since they whipped the south into sullen submission, of general absorption is well known. They firmly believe in their powers of absorption, and they hold it as a foregone conclusion that, sooner or later—the exact time being unimportant, as one of themselves has expressed it—"all the populations on the continent whatever their present condition, must gravitate towards their political system, and ultimately be merged into it. Entertaining these views, Uncle Sam feels very much that sort of interest in the British North American possessions that an Epicurean may be supposed to entertain for a turkey which he is fattening for his Christmas dinner, and which it is his fixed purpose and determination to "gobble up" when the proper time shall have arrived. Of course we differ with these enthusiastic people somewhat, as to the "manifest destiny" of the British possessions on this continent. The great Republic may or it may not absorb the southern portion of it. If it does we imagine Mexico will produce an amount of unrest in the rapacious maw of Uncle Sam which will blunt his appetite for a meal of "Johnny's." But whatever may be the doctrines and desires of the United States, of one thing we are satisfied, and that is that Great Britain won't dispose of British Columbia in whole or in part. To do so would be to hand over the key of her American possessions to a rival power—to cast away the key-stone of that magnificent confederated Empire which is now attracting so much attention. To transfer British Columbia to the Americans would be a most fatal step—in fact the "beginning of the end" to British power upon this continent, and the rest, the North-West and the Atlantic Provinces, would assuredly follow. It is all or none; and this the Americans well know. Our own nation ought to have had Russian America—might have had it for the taking during the Russian war. But now, through our supineness, it has fallen into other hands. Well, we are not sure that the acquisition of it by the Americans has not its advantages for us, as well as its disadvantages to our nation. And even this au-

dacious proposition just made by Seward, if indeed it has been made, to buy us will be attended with beneficial results. These things will all tend to rouse the old sleepy British Lion, and open its eyes to the value of the Pacific territory. The very energy necessary to watch the big Eagle, and prevent it from swooping down upon us will tend to keep this country, long neglected and little appreciated, more prominently before the British public, and demonstrate the necessity of doing something with it—connecting it more intimately with the possessions on the eastern side of the Rocky Mountains. On the well understood principle of two jealous lovers, British Columbia is in a fair way to receive more attention from Lethbridge "John Bull." British Statesmen have a very indistinct notion of the geographical position of this Colony; much less do they realize its intrinsic value or its political importance. American Statesmen, with all their Yankee cuteness, knew little about it and cared less, until the purchase of a small strip of sterile and inhospitable territory to the north of us, for the sum of seven million dollars, has naturally drawn attention to the intervening territory of British Columbia, and without which the newly acquired domain will neither be profitable nor convenient. These remarks are not necessarily based upon the assumption that Seward has made a proposition to buy. He may or he may not have done so. But if he has not there can be little doubt that he will.

HOME-MADE BEEF.

Epicureans may extol the "roast beef of old England," and Poets may sing its praises, but British Columbia beef's the beef for me. We have frequently alluded to the extraordinary beef-producing quality of the grasses of British Columbia, and more than once to the fact that upon the extensive grass-ranges of the Lower Fraser animals will fatten during the winter. Last Christmas we drew attention to some fat cattle brought down from Mr. P. L. Anderson's Ranch, at Summass. We have now to allude to four steers brought down from the same place last week, and some of the beef of one of which may possibly yet be seen in the shop of Messrs. P. L. Anderson & Co. Of the four two were sold for work animals, the other two being turned into beef; and oh such beef! For thickness, fatness and flavor we never saw anything to equal it. One of the steers, not the largest by 200 lbs, was killed on Wednesday, and we took the trouble to ascertain by ocular demonstration what it yielded, with the following result:—Beef 1009 lbs. Fat 85 lbs. Now, we don't mention this as a "trade puff" for Messrs. P. L. Anderson & Co. No. We have a much higher and more legitimate object; and that is to make as public as possible the resources of the country and the adaptability of its climate and lands for stock purposes. These four steers we give as an illustration. And, in doing so, it is no more than right to state that they were turned on to the above named Ranch last fall and allowed to forage for themselves during the winter, not having been housed or fed for a single day! In saying that the beef thus produced was equal to the finest stall-fed beef, as regards fatness, and, of course, far superior in flavor, we are sure that we shall be supported by every one who has been fortunate enough to secure a "cut" from one of those steers. With an abundance of such lands, and blessed with such a climate is it not marvellous that in its 8th year, the Colony is still so largely dependant upon a foreign supply?

It appears from official accounts that nearly a million of men have perished during the recent famine in India, and that the annual revenue that country contributes to the British Treasury is about £45,000,000.

NOTICE.

In the matter of the Estate of Abraham Barlowe, of British Columbia.

A FIRST dividend of Five per cent. in the above Estate will be payable on and after the Tenth day of May next, at the office of the Hudson Bay Co., Yale.

All persons who have not set in their claims must do so on or before the said Tenth day of May, or they will be deprived of the benefit of the dividend hereby advertised.

J. W. McKay, Assignee.

REPORT OF THE FIRE DEPARTMENT.

To the President and Members of the Municipal Council.

GENTLEMEN,—The undersigned, in accordance with the 12th clause of the Fire By-Law, begs leave to report the condition of the Fire Department, in regard to its financial affairs, its strength and the wants and requirements of the Department to render the willing services of the members of the Fire Company efficient and useful to the property-holders of the City.

The Secretary's Report herewith, contains the list of the members, the financial statement and the additions to the property of the Company.

The property of the Company consists of one first-class Fire Engine, one hose-carriage, 500 feet of hose, one Engine House, one splendid bell, buckets, ladders, furniture, &c., all in good order.

The Department consists of one Chief, one Assistant Engineer and one Company consisting of 40 active and 21 Honorary members.

I would respectfully suggest that in order to increase the precautions against fire, additional tanks should be placed as follows: one on Agnes street, between Mary and Hanley streets, and one in the vicinity of the Hospital. I would also recommend that the tank in front of the Columbia Hotel be enlarged. In reference to this last suggestion I beg to refer to my report of May, 1866, in which I drew the attention of the Council to this improvement, the position of the tank being such as to command a large number of valuable buildings; as for instance, the Scott and Dickinson block, the Mansion House and all the buildings adjoining. In the event of a fire occurring in any of the buildings above mentioned water could only be obtained from the Hyack Hall or the river, causing in either case a great loss of time. These tanks would cost but a very small sum and would be the means of preserving a large amount of valuable property should a conflagration unfortunately occur in the vicinity.

Trusting that the above suggestions may meet with the approval of your Honorable Body, and that the Fire Department may always have your support and favor.

I remain, Gentlemen, Your Obedient servant,
P. G. RICHARDS,
Chief Engineer.

New Westminster, March 26, 1867.

CARD OF THANKS.

WE, the Members of the Hyack Band, New Westminster, desire thus publicly to acknowledge the courtesy of Captain Fleming of the steamer Lilloet, in tendering to us a free excursion to Yale, and back, and in treating us with the most sumptuous business and attention during the trip. Any language we can employ must constitute a very inadequate return for such whole-hearted kindness as we have received, yet our most hearty thanks are now tendered to Captain Fleming, as the only recompense in our power.

To Mr. W. H. Sutton and the people of Yale generally we would also offer our thanks for their kind hospitality extended to us during our stay in that pretty and lively town.

HENRY BENNEY, J. FANNIN,
A. BRUCKMAN, J. MUSSELWHITE,

DIRECTORS,
JOHN PARROTT, CHAS. McLANE,
WY. C. RALSTON, A. HAWARD,
LOUIS A. GARNETT.

LOUIS A. GARNETT, President and Manager,
JOHN HEWSTON, Jr., Chemist and Superintendent.

THIS Company having greatly enlarged their Refining Works, and introduced many other improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor is lower than in any other part of the world, and assures to the mining interest of this coast an important increase in the value of the bullion and silver of all kinds.

Their charges hereafter will be as follows:—

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-tenth of one per cent. (hitherto a quarter) for all amounts over \$1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to \$1,000, and one eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 500 parts gold, 2 cents per ounce.
On bullion 500 to 600 parts gold, 8 cents per ounce.
On bullion 600 to 750 parts gold, 12 cents per ounce.
On bullion 750 to 900 parts gold, 16 cents per ounce.
Above 900 the only charge will be for carriage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the mint—a half of one per cent.—and which is paid by us to that institution, but there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN MADE IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate as bullion at the mint, and the gold bars of other Assayers in good standing, will be coined by us at the highest market rates.

Dust and dross will be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the U. S. Mint, we annex the tariff of charges now in force at that Institution.

For refining bullion under 200 parts gold, 5 cents per ounce.

For refining bullion from 200 to 300 parts gold, 10 cents per ounce.

For refining bullion from 300 to 400 parts gold, 15 cents per ounce.

For refining bullion from 400 to 500 parts gold, 20 cents per ounce.

For refining bullion from 500 to 600 parts gold, 25 cents per ounce.

For refining bullion from 600 to 700 parts gold, 30 cents per ounce.

For refining bullion from 700 to 800 parts gold, 35 cents per ounce.

For refining bullion from 800 to 900 parts gold, 40 cents per ounce.

For refining bullion from 900 to 1000 parts gold, 45 cents per ounce.

THE APPROACHING CELEBRATION

Inasmuch as only one day, (the 24th of May) out of the three hundred and sixty five is set apart as a day for general fun and frolic had it not better make the most of it? We have been in the habit hitherto of inviting our aboriginal brethren, or at least the Princes and Princesses and the Royal Papooses, to partake of our hospitality. Are we not in a manner bound to provide these dusky dignitaries with a reasonable amount of amusement? We give them the everlasting "ascuit and moasses," varied it may be, by a few feet of "ropo-tobacco," and the soothing "pipe of peace," and we hope to see these *idiot*, well enough in their way, supplemented by implements of husbandry, and useful arts of civilized life and industry. We even go further and stimulate the exercise of their lazy muscles by offering prizes for canoe races &c. It appears to us, however, that in all this the white entertainer has not fully played his part, either as the host of the red man, or as the more appreciating subject of that noble woman in commemoration of whose birth the celebration is kept up. The Indian affords us an illustration of his prowess with canoe and paddle. Why should not we, in return, give him an exhibition of the superiority of more civilized appliances? Hitherto the races and games and sports of the whites have not always been so well arranged or had so prominent a place upon the programme as they are entitled to; nor, perhaps, have they received that patronage from those high authorities which might fittingly be extended to them. The idea has suggested itself whether it might not be well to extend the celebration over two days; giving up the first chiefly to the Indian part of the programme, and devoting the second more to the boat, foot and other races, games and sports of the whites. In attempting all in one day, especially should the weather unfortunately prove to be unfavourable, the whole is apt to be spoiled and general disappointment and dissatisfaction are the result. But whether the celebration is to occupy one day or two, we should like to see more system observed in getting up, and carrying out the programme, and more encouragement given to those who are expected to enter the lists in the races &c. A prize given by the Governor, or however little intrinsic value, would be highly esteemed by the winner. Another might be given by the Colonial Secretary, and, possibly, a third by the Member for the City, and a fourth by the Mayor, these to be followed by the usual prizes from the Committee. If this were done, and timely notice given so as to afford opportunity for training and other preparations, we feel confident that not only would the celebration be of a character more worthy of the occasion which gives rise to it, but both Indians and whites would be better pleased. While it behooves the whites to be upon their best behaviour in the presence of so large a concourse of semi-savages, it also becomes a sort of duty to afford to these people as much rational and innocent amusement as can conveniently be done. To this end it is essential that the Executive Committee should be organized at once and the programme published as early as possible.

FROM VICTORIA.

The steamer Enterprise, Captain Swanson, arrived from Victoria last evening, bringing up files of Island papers, from which we glean the following:—The Amateur Dramatic Club gave the last performance of the season on Wednesday evening. A complimentary dinner was given to Mr. Rushton, late of the Bank of B. C., who is leaving for England. Mr. Mc Worthy has returned from San Francisco, for the purpose of prosecuting quartz mining in Cariboo. The Ste. California arrived on Thursday evening with 70 passengers and a full freight. She was to sail last evening, calling at Port Townsend. His Excellency Governor Seymour and suite arrived at Government House on Thursday, they landed at McNeil's Point and walked over. A private letter from London says that Mr. Klauke's Emigration Scheme will meet with no encouragement. Who ever thought it would?—The Pilot Commissioners met on Thursday, and adjourned till Friday. Mr. G.W. Wallace has obtained from Government the exclusive right to construct a telegraph between Victoria and Esquimaux.

FROM CARIBOO.

With the Express which reached us from Cariboo yesterday we have the *Sentinel* of the 15th inst., from which we glean the following items of intelligence:—The recent rains and warm weather had raised the water, affording an ample supply for mining operations on Williams Creek. All was activity, making preparations for the coming work. The freshet is a month earlier than last year. The Companies which were working at previous advices continued with results generally satisfactory. The Prairie Flower Co. had struck a good prospect.

On Grouse Creek there had been considerable excitement. The Black Hawk Co. above, and the Canadian Co. below the Heron were simultaneously sinking and drifting for the en-

ormously rich lead which has rendered the Heron Co. famous. Other Companies were also in search of it; but up to latest dates it had not been struck, although those in search of it were sanguine of success.

The Anglo-American Hydraulic Co. were about to start for the scene of operations on Keithley's Creek, where they go full of confidence.

There is nothing new from Canyon Creek.

The contract of the Washburne Co for sawing the lumber required to construct their Arastras, was let to Baker & Williams at 144 cents a foot. Mr. James Christie has been appointed foreman of the company in place of G. B. Wright, resigned, and leaves in a few days to take charge of the work.

At a meeting of the Mining Board, held on the 28th March resolutions were passed disapproving, in the strongest terms of the concession made by Government to the Grouse Creek Bed Rock Flume Co., as contrary to law and injurious to the mining interests. The Commissioner is also charged with conduct "highly disrespectful to the Mining Board."

A Fire Company has been organized at Barkerville, with Mr. McNamie as Foreman, and Mr. Burrell as Secretary. The Company had decided upon constructing a water tank on the hill behind the town.

The Post Office and Library were removed to the old Parlor Saloon, Barkerville, where they would remain until the new buildings were ready for their reception.

Griffith Lewis, a native of South Wales, died at Williams Creek Hospital on the 12th inst. of inflammation of the bowels.

The Banks have reduced the prices hitherto paid for gold dust. The following are the current prices of gold from the several localities:—Lowhee creek and Willow river, \$17 02; Lowhee (deep channel), \$16 62; Keithley's creek, \$19 75; Lightning, Davis Last Chance, Oro Fino creeks, \$16 65; Stouts Gulch, Cottonwood, Buros, and Melsans creeks, \$16 50; Quesnelle, \$16 62; Williams creek (lower), Cumbingham creek, McArthur's Gulch and Sugar creek, \$16; Williams creek (upper), \$15 10; Antler, \$15 52; Grouse creek, \$15 50; Canyon creek, \$15; Cedar creek, \$15 25; Lowhee creek, amalgam (upper), \$14 51; Williams creek amalgam (lower), \$15 15; Fraser river and Regs Gulch amalgam, \$15.

Several prospecting parties were being organized. The first for the season, consisting of Messrs. Hutton Perrin, Wright, Hendrick and Leeming, all old pioneers, started out on the 12th inst. Their destination was kept a secret. The party was followed by several inquisitorial persons.

The town of Barkerville is said to be improving rapidly. Many new buildings are going up, and sidewalks are spoken of. The *Sentinel* gives the following list of buildings:—32 Saloons, 10 Stores, 3 Shoemakers Shops, 3 Restaurants, 3 Lodging Houses, 2 Bank Agencies, 2 Drug Stores, 2 Watchmakers Shops, 2 Breweries, 2 Tin Shops, 2 Blacksmiths Shops, 1 Express Office, 2 Carpenter Shops, 1 Post Office, 1 Printing Office, 1 Public Library, 1 Paint Shop, 1 Clothing Store, 1 Butcher's Stall, and 1 Public Stable.

FROM VICTORIA.

The steamer Enterprise, Captain Swanson, arrived from Victoria last evening, bringing up files of Island papers, from which we glean the following:—The Amateur Dramatic Club gave the last performance of the season on Wednesday evening. A complimentary dinner was given to Mr. Rushton, late of the Bank of B. C., who is leaving for England. Mr. Mc Worthy has returned from San Francisco, for the purpose of prosecuting quartz mining in Cariboo. The Ste. California arrived on Thursday evening with 70 passengers and a full freight. She was to sail last evening, calling at Port Townsend. His Excellency Governor Seymour and suite arrived at Government House on Thursday, they landed at McNeil's Point and walked over. FROM CARIBOO.

With the Express which reached us from Cariboo yesterday we have the *Sentinel* of the 15th inst., from which we glean the following items of intelligence:—The recent rains and warm weather had raised the water, affording an ample supply for mining operations on Williams Creek. All was activity, making preparations for the coming work. The freshet is a month earlier than last year. The Companies which were working at previous advices continued with results generally satisfactory. The Prairie Flower Co. had struck a good prospect.

On Grouse Creek there had been considerable excitement. The Black Hawk Co. above, and the Canadian Co. below the Heron were simultaneously sinking and drifting for the en-

THE BRITISH COLUMBIAN.

LOCAL ITEMS.

The steamers Lillooet and Onward proceeded to Yale on Wednesday with freight and passengers, and returned yesterday, the latter bringing 6,000 lb of beautiful potatoes from Mr. Howard's Ranch, Maple Ridge. The Hyack Brass Band were the guests of Capt. Fleming for the trip, and we understand they had a gay time of it, as tonishing the natives on the river, and relieving the monotony of life in Yale. The gentlemen composing the Band speak in terms of unmeasured praise of Capt. Fleming's kind attentions. Their card of acknowledgement will be found in another column.

H.M. Ganboat Forward, with his Excellency Governor Seymour, and Private Secretary, and the Hon. A. N. Birch, Colonial Secretary, sailed for Victoria early on Thursday morning. His Excellency and suite may be expected back in the course of a week or ten days.

A Seal weighing 220 lbs. was taken in the river opposite this city on Wednesday, by Mr. Alexander Bain. We believe it is the largest that has been caught here.

Mr. Brady, of Lillooet, arrived in this city yesterday. There is no news of importance from that place.

Born Steamers will sail early this morning for Yale.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EASTERN STATES.

New York, April 18.—The *Herald's* special says an expedition to Russian America is being organized by the department of State, for the purpose of making a thorough survey of it, and also Explorations. It will start about the 1st of May; the officers have not been designated though Professor Bayard Smith or Nearing will be one of the movers. It will assemble at San Francisco and take the Revenue Cutter Lincoln and go to Sitka and thence explore the interior and coast.

New York, April 18.—It is rumored that negotiations are pending with England for the purchase of the Western portion of British Columbia including Vancouver Island. The only difficulty in the way of that consummation seems to be that Seward insists on turning in the Alabama Claims as payment, to which Lord Stanley, Foreign Secretary, demurs.

ROCHESTER, N. Y., April 18.—The Canada papers complain that a gold excitement is prevailing among the young men there. Companies are forming throughout Canada. Machinery is being transported at great expense. Claims are sold at from five to fifty thousand dollars. The Madoc District presents the chief attraction.

New York, April 20.—General Leferre of Ohio was yesterday nominated for Governor of Washington Territory and rejected.

The *Tribune's* special says that after careful examination he finds the offices that are remaining vacant, are the Naval Officer at New York, the Consul General at Havana, one internal revenue assessor and two Post Offices in Pennsylvania, eight Post Offices in Illinois and three in Wisconsin, one internal revenue and two post offices in Missouri and Tennessee.

NEW ORLEANS, April 20.—It is estimated that the loss to the United States of internal revenue on account of the destruction of this year's crops of cotton, sugar and molasses by the flood, will be between eight and ten millions of dollars.

CHICAGO, April 21.—The freshets in the Western Rivers continue, the Missouri is higher than it has been since 1844 and still rising, two miles of the Pacific Railroad near Wyandotte has been inundated.

New York, April 23.—The Steamer Thama from Tampico April 17th brings positive information of the capture of Puebla, letters from the Liberal Camp says General Diaz shot six generals and 61 lesser officers who were captured at Puebla in retaliation for the October decree.

EUROPEAN.

BERLIN, April 18, evening.—It is reported that the French frontier is to be put on a war footing and ambulances purchased and that the French reserves will be called in on the 1st of May.

Prussia is making preparations for war.

LONDON, April 18.—Berlin dispatches say that the speech of the King at the closing of Parliament caused distrust throughout Germany.

April 20.—A plan for the settlement of the Luxembourg question has been submitted by other powers. France is willing to accept, Prussia has not replied. It is believed that the peace of Europe will be kept.

April 21.—Gladstone has signed a letter in which he virtually resigns the leadership of the Liberals.

BERLIN, April 18.—It is reported that the French forces of the frontier are to be put upon a war footing.

April 19.—Prussia has sent a strong note to Napoleon asking the reason for the military preparations of the armies of France.

An Envoy has been sent to Vienna to secure the alliance of Austria.

VIENNA, April 21.—The *Vienna Post* the official organ, has an editorial on the relations between Prussia and France, counselling its readers not to put too much faith in the professions of the peace of Europe.

CALIFORNIA.

SAN FRANCISCO, April 23.—The Cosmopolitan Hotel is on fire! The hotel was full of guests, nearly every room in the House being occupied. If the two lower stories escape it will require months to put the building in repair. The whole attic story is gone and the smoke is driving out of the windows of the next story below on the South-East. It may be possible to save the lower floors.

CLEAN NGES FROM DECHANGES.

Riv. Mr. Babin, of Ottawa, whose trial in connection with the mysterious disappearance and death of a deformed sister, created much interest, and provoked severe criticism throughout Canada, a few months ago, has instructed his counsel (Mr. Devlin) to bring actions for libel against all newspapers which commented adversely on the case. The lawyers, says an exchange, are likely to have their hands full, as nearly every paper in the Province is implicated.

The present Canadian Parliament expires in June; but it was thought probable that a short spring session would be held at Ottawa. Sir John Mitchell, the administrator of the Government, had called Parliament together on the 27th February, but not for the dispatch of business.

The gold fever in Canada appears to be raging with increased virulence. One nugget weighing 45 and another 10 ounces had been taken from the same pit. The finding of a thousand dollar nugget in the Chaudiere mines was also reported.

CANADIAN peat prepared by the process invented by Mr. Hodges, is attracting considerable attention, as an article of fuel, and especially for the generation of steam. It is pronounced much superior to coal. The *Scientific American* has an able leader upon the subject.

The receipts of the Quebec Relief Commissioners amounted to \$338,734. The Commissioners are appropriating a portion of the money towards rebuilding. They propose prohibiting the erection of buildings of any material other than brick or stone, not only within the city limits, but within a radius of three miles beyond. The *Quebec Mercury* thinks this is going a little too far.

A company has been formed in Gode-rich, Canada West, for the purpose of boring for salt and oil. It is proposed to sink a bore much larger than that of the present salt well.

It appears from the annual Mercantile report that the year 1866, taken altogether, was one of great commercial prosperity to Canada. It has been discovered that Canada can not only get on but flourish without a reciprocity treaty with the United States. Indeed the abrogation of the late treaty, instead of entailing untold injury on that Province, as some predicted at the time, appears to have had quite a contrary effect. The imports during the year were \$58,802,319, and the exports \$56,328,380. There was imported through Montreal alone \$28,733,321. The customs revenue collected at that port last year exceeded that of any previous year by a million and a quarter.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, on Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humors, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in union with it, facilitating and confirming the conquest of the disease.

Diphtheria, Ulcerated Sore Throat and Quinsy.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are now easily cured by these means, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief,

NOTICE.
CODVILLE LANDING!
Important to Packers, Stock Drivers, and the Public in General.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms. Large Reductions from the regular price made in favor of trains.

Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the River from that of Sumas, is on an island of miles long by 44 wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.

In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse covers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

AGENTS.—DIXIE & NELSON, New Westminster. A. BARLOW, Esq., Yale.

Remember Codville Landing, not Sumas. An Hotel open and a ferry from the 1st October, for the traveling Public.

N. B.—Stock bought and sold on commission. selc

**AYER'S
CATHARTIC
PILLS.**

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prodrome to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the system of humors—purify the blood, and let the fluids move unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and disease. While in this condition, oppressed by the derangements, take Ayer's Cathartic Pills, and you will find the most natural action of the system and with it the buoyant feeling of health again. What is true and so apparent in this case, is equally true in all the cases of the impure blood and dangerous derangements. The same purgative effect exists there. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them safely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons. From a *Forrester's Merchant of St. Louis*, Feb. 4, 1866. Dr. Ayer: Your Pills are the purgative of all that is great in medicine. They have cured me of a long and painful disease, and have been of great service to me in many other cases. I have been suffering from a cold, and a cough, and a general debility, and have been unable to do my duty for some time. I have been using your Pills, and have found them to be the best I have ever used. I have been cured of my cold, and my cough, and my general debility, and I am now able to do my duty as usual. I have been using your Pills, and have found them to be the best I have ever used. I have been cured of my cold, and my cough, and my general debility, and I am now able to do my duty as usual.

As a Family Physician. Your Pills are the purgative of all that is great in medicine. They have cured me of a long and painful disease, and have been of great service to me in many other cases. From Dr. J. C. Ayer, of Lowell, Mass. I have been suffering from a headache, and a sick headache, and a pout stomach, and have been unable to do my duty for some time. I have been using your Pills, and have found them to be the best I have ever used. I have been cured of my headache, and my sick headache, and my pout stomach, and I am now able to do my duty as usual. I have been using your Pills, and have found them to be the best I have ever used. I have been cured of my headache, and my sick headache, and my pout stomach, and I am now able to do my duty as usual.

ST-1860-X.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing disease, from the blood, and cleansing all the tissues of the body. They have saved thousands of years after years from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhoea, constipation, liver complaints, &c., & a fact attested by hundreds of witnesses. Exhaustive weakness and debility, the warnings of decaying organic energy and vitality, are restored and reinvigorated with vigor and healthful action in every organ throughout the system, by the restorative and exsanguinating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis, from the life and health of woman, youthful or aged, married or single, may be relieved and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side, and over the region of the lungs, on the left side, and you will find at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are immediately carried off and prevented from further accumulation. The sufferer regains a buoyancy of spirits and vigour, and is completely restored to health, and is not only enabled to do things which they knew would be impossible to themselves.

Stomach, Liver, Kidneys and Bowels.

These who suffer from liver and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving healthy action to the liver; if holloway's Pills are allowed to continue, serious results may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day, and the Pills taken in union, will cure any complaint arising from these organs.

Buffy—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Let moderately of cold, take six Pills nightly or some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly re-generated to health and vigor. Try this last, for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood. The action of the liver, and cleanse the stomach and bowels, a few doses of these Holloway's Pills will immediately have the desired effect, particularly if parents be careful not to allow them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague, Female Irregularity, Scrophulous, or King's Evil, Rheumatism, Dropsy, Constipation, Indigestion, Liver Complaints, Consumption, Lumbago, Rheumatism, Retention of Urine, &c., &c.

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 12d., 2s. 6d., 4s. 6d., 11s. 25s., and 50s., each Box.

There is a considerable saving by taking the larger sizes. N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
